CURIOUS CARE OF CONSUMPTION.

There is scarcely a day passes but there are a number of
cases of consumption reported as cured by the use of Dr.
Townsen's Saraspatilla. The following was recently received:

Dr. Townsen—Dear Sir: For the last three years I
have been afflicted with general debility, and nervous consamption of the last stage, and did not expect to ever gain
my health at all. After going through a course of medicine
under the care of a me of the most distinguished regular
physicians and members of the Board of Health in New
York and elsewhere, and spending the most of my saritings
in attempting to regain my health and after reading in
some paper of your Sarreparilla I resolved to try it. After
using six bottles I found it done me great good, and called
to see you at your office; with your advice I kept on, and
do most heartily thank you for your advice. I persevere in
taking the Sarsaparilla, and have been able to attend to my
orant labors for the last four months, and I hope by the
blessings of God and your Sarseparilla to continue my
health. It helped me beyond the expectations of all who
knew my case.

SPITTING H. ODD. TRES" an excellent remedy, and not surpassed by any medicine in use.

The history of this medicine is peculiar. It has made its way to public fivor solely by the force of its own intrinsic merits. No artificial means have been used to give it notoriety and thrust it upon public attention. It has never before even been advertised, but having first shown its remarkable efficacy in the family of the proprietor, and by him afterwards administered to his afflicted friends and sequantances with a like result, its repulsition gradually extended until it is known in the most distant parts of the Union, as a medicine of unrivalled virtues in the cure of Dyspepsis in all its different forms, and also for the cure of Asthma or Philisic. Its only herald and its only culogy has been the story of its wonderful efficacy, as told from month to mouth or by letter from friend to friend. In every instance where these Bitters have been used, and the result made known to the proprietor, they have proved a remedy.

Nitnerous certificates, attenting the aimside efficacy, of

Nitmerous certificates, attesting the singular efficacy of the "Oxygensatub Bittens," are in the possession of the proprietor; many of them signed by persons already widely known to the public.

We hope that this valuable remedy may be so generally diffused throughout the country that it may be accessible to all the afflicted.

At last I raised large quantities of blood, had night sweats and was greatly debitated and reduced, and did not expect to live. I have only used your Sarsanarilla but a short time, and there has a wonderful change been wrought in me. I am now able to walk all over the city.—I raise no blood, and my cough has left me. In presenting the public with a remedy for the treatment and care of Fiven and Aura and other billions discuses, no applogy is needed. Vota numbers in the United Smites, who suffer from these affections in their varied forms, are compelled to seek relief from other sources than the immediate prescriptions of the regular physician. It becomes therefore an object of humanity, as well as of public interest, to bring before them a remedy prepared from much experience, and which may always be relied upon an safe, EFFECTIAL, and HARMLESS TO THE CONSTITCTION. That such is the true character of the INDIA CHOLAGOGUE, is amply attested by the universal success with which it has been employed.

Decror Charles Osiood,
Dear Sir,—I have read with much interest, your little Trakeatian upon the "causea, treatment and cure" of the febrile diseases which have so extensively prevailed in our country during the last few morths—an interest increased in doubt, by the fact that I have individually suffered so much from them. Though I feel myself very incompetent to judge mifely upon a subject so entirely professional, yet your theory seems to me well reasoned, and your conclusions just, and I think withil, that your pumpliet is calculated to produce much practical good.

Speaking of the medicine he says:—It fully justified your flattering expectations, and as a safe, convenient, and popular remody, my own experience, so far, induces me to be lieve that it will prove a great public benefit. I am pleased to learn plant you have recently established several agencies for its disposition—though I regret that, with a view to a more general disensitation of it, you should have found if necessary to remove from your present residence among us.

With much respect I have the longet to be, it, "Your obliged servant," WII LIAM WOODHRIDGE.

Birmanana, Osakany Co., Dec. 13, 1811.

Sir—you wish me to inform you what I know of Dr. Osgosel's India Chologe que, or anti-bilous medicine. I do believe that if the virtue and efficacy of this medicine were generally known, the Frum AND AGEN Would disappear in Michigan.

I procured a bottle in the apping of 1841, and have good reason to believe that myself and family escaped the ague last season in consequence of its use.

Perhaps in my summer since the settlement of this fine peninsulg, has the fever and ague been as prevalent as the just and the produced the most happy effects, and I het lieve it has never been exceeded by any medicine in removing the bilious diseases of the climate.

Yours, respectually.

In this medicine several innocent bir very potent articles of the vegetable kingdom are united, forming a compound entirely different in its character and properties from any other preparation, and mirivalled in its operation on the system when laboring under discusse. It should be in the hands of every person, who, by business, or general course of life, is predisposed to the very many utiliments that render life a curse, instead of a blessing, and so often result in death.

Qr. Drake's Panacea is recommended as a certain remedy. Not one instance of its failure has ever occurred when freely used! It cures the disease and at the same time imparts vigor to the whole system. Scrofulous persons can never pay too much attention to the state of their blood. Its partitionin should be their first aim; for perseverance will necomplish a cure of EVEN MEREDITARY disease.

FOR ERUPTIONS OF THE SKIN. Scarvy, Scarbutic Affections, Tumors, White Sweiling, Eryshpelas, Uleers, Capeers, Running Sores, Scabs, and Blies, Dr. Drake's Panacea, cannot be two highly extolled; it searches out the very root of the disease, and permanent.

INDIGESTION OR DYSPEPSIA. No medicine perhaps has ever been discovered which gives so much tone to the stunnel and causes the secretion of a healthy goatric juice to decompose the root as Dr. Drake's Panacea

RHUEMATISM Dr. Drake's Panacen is used with the greatest success in Rheumatic Complaints, especially such as chronic. It cares by driving out all impurities and tout hum are which have accumulated in the system, which are the cause of Rheu-man'su, Gout, and Swellings at the joints. Other remedies sometimes give temporary rener; this entirely eradicates the discuss from the system, even which the limba and bones are described.

A specific has long been sought to, but in vain until the discovery of Dr. Brake's Punacea. It is mild and safe but certain and effications in its operation, and cannot possibly injure the most delicate constitution. We would carnestly recommend those offlicted to give it a trial—and we believe they will not have occasion to re-ret it. Dear Sin:—In reply to your question respecting the use of Dr. Drake's Panacea, I will say, that although a perfect disbeflever in the existence of a Paxatica, or care for Ath diseases, however valuable it may be in certain c additions of the system, still I have believed that a cure for Consumption would be discovered scoler of later, and can still be discovered scoler of later, and can still be discovered scoler of later, and can still be used that the persons had been under the treatment of several very able practitioners for a number of years, and they said she had "old fashioned Consumption combine with Serotials," and that she might linger for some time, but could not be persons he been nost gratiying. TO THE LADIES.

Ladies of pale complexion and community habits, and such as are debiliated by those obstructions which females are liable to, are restored by the use of a bottle or two, to oldoon vigor. It is by far the lest remedy ever discovered for weakly children, and such as have had humors; being pleasant, they take it. It immediately restores the appetite, strength and color.

Nothing can be more surprising than its invigorating effects off the human frame. Persons, all weakness and has situde before taking it, at once become robust and full of energy duder its influence. It immediate counternets the nervelessness of the female frame.

This medicine is compounded on general principle, from
the pure, unadulterated berts of the Indian. Atthough
there are many medicines called by the same name, every
one is aware that there is a very greet difference among
them. Those of them that are called "Indian," have stolen

similarity of range does not create a changerity in the character of the medicine.
